Testimony

CD1 will offer an affordable and humane option to feral cat population control. CD1 provides an effective alternative to a Trap-and-Kill program. In supporting CD1's \$10 feral cat certificate, not only will lives be saved, but most importantly feral cat populations will be stabilized and controlled. Historically, Trap-Neuter-Return programs are far more effective in controlling cat populations than Trap-and-Kill programs, as they add to an endless cycle of repopulation. CD1 is the best choice for communities both human and feline.
